PRESTASHOP THEME WHITEPEARLLAYOUT1

We are pleased that you have chosen our theme.
We hope you are enjoying the convenience, quality, and affordability of our theme.

If you have any questions, please feel free to contact us via our support form. Thanks again for your purchase.

Step 1 : Theme Upload

TOP^

Please read the documentation carefully before attempt to install.
Before upgrade or install please take back up of your current system.
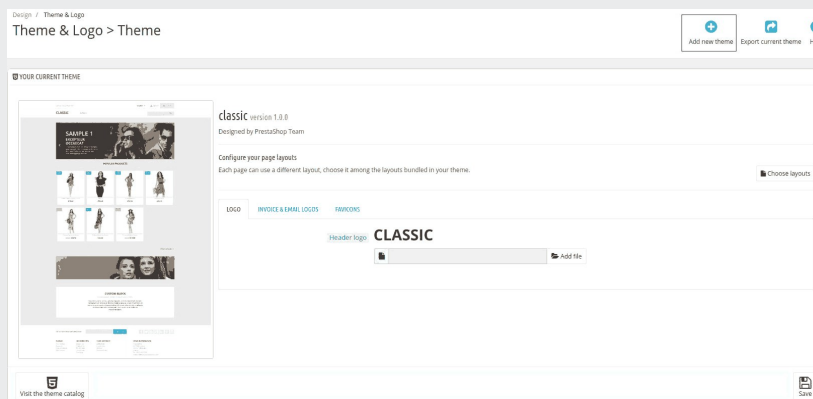

There are two ways to upload the theme.

1) Primary way

Upload your theme installer from admin panel

Log in into your site Prestashop Admin panel, Go to **Design** > **Theme & Logo**.
Now click on **"Add new theme"** to add theme.

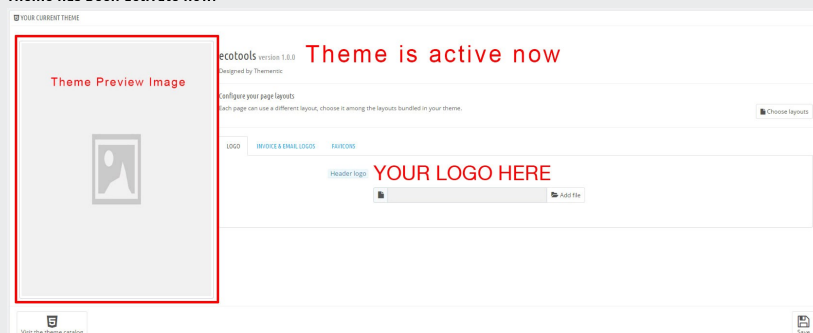

After that upload **"whitepearllayout1_installer.zip"** (Provided in our Theme Package) in **"IMPORT FROM YOUR COMPUTER"** section as shown below and click on **"Save"** button.

Now click on **"Use this theme"** to activate the theme.
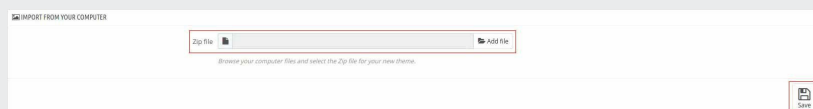

Click on "Use this theme" to activate our theme

Theme has been activate now.

Theme is active now

Log in into your FTP server through filezilla or any other FTP software.
Now upload only this folder (**img**) in your root folder where you install Prestashop as show in below figure.

UPLOAD IMG FOLDER ON YOUR ROOT PATH

2) Secondary way

If you failed to attempt first method then use this method.

Upload your theme from FTP.

Log in into your FTP server through filezilla or any other FTP software.

Now upload these folders **(img , modules , themes)** in your root folder where you install Prestashop as show in below figure.

Upload these folder in your root directory
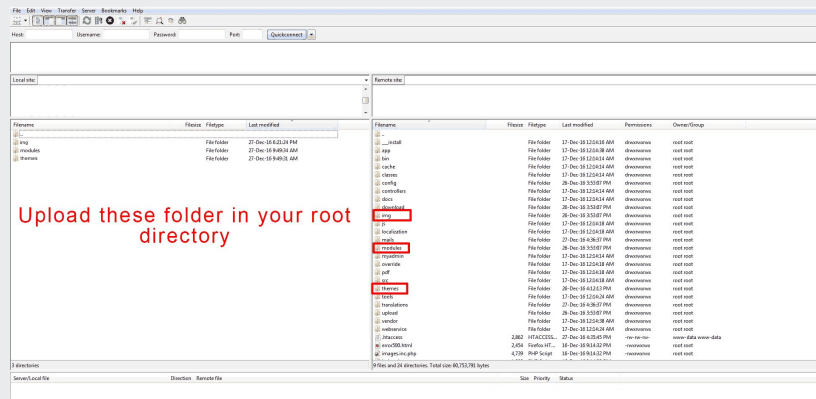

After upload all the files

Log in into your site Prestashop Admin panel, Go to **Design** > **Theme & Logo**.

Now click on **"Use this theme"** to activate the theme.

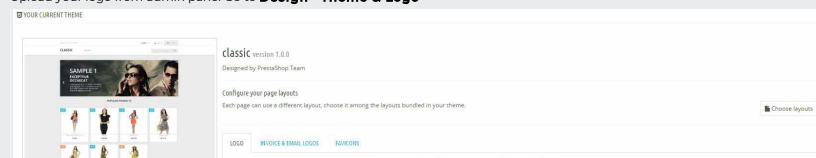

YOUR LOGO HERE

Click on "Use this theme" to activate our theme

Theme has been activate now.

Theme is active now
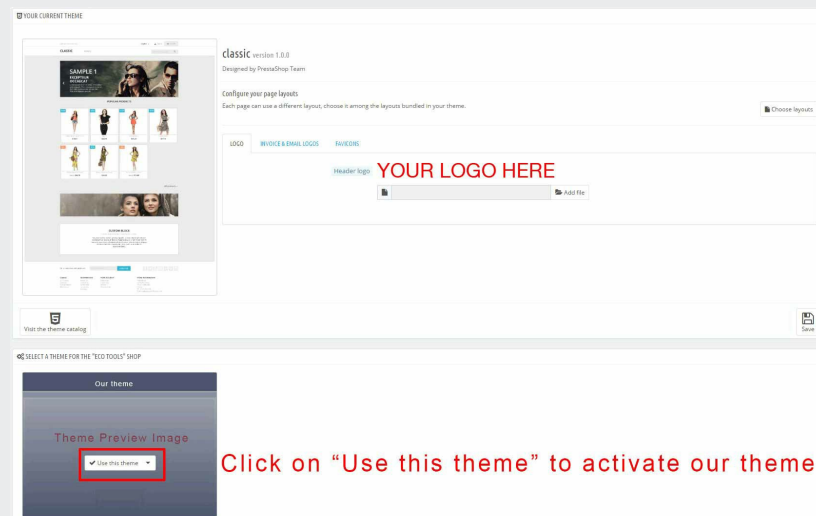

YOUR LOGO HERE

Step 2 : Logo Upload

Upload your logo from admin panel Go to **Design** > **Theme & Logo**

YOUR LOGO HERE

🖿   📁 Add file

Click here to upload your logo

🔲 Visit the theme catalog   💾 Save

So it's suggested to edit a product image size parameters.
Go to **Design > Image Settings** and update image size for your store.

Refer below screen shot for it.

Step 5 : Theme Translation

Theme Text Translation.

Module Text Translation.
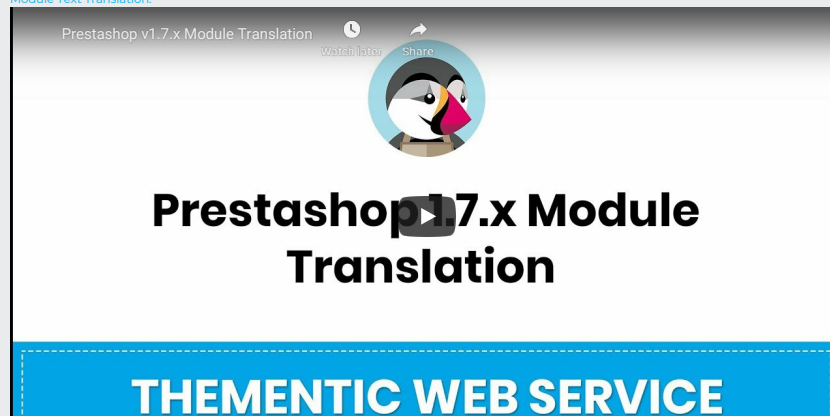

Step 6 : Theme FAQ

How to install the theme?

You'll receive a theme bundle zip file for all our premium themes. You need to unzip the downloaded file and check installation guide of the theme.

Can I change the theme logo, color & image?

Yes, you can change color & images of the theme. The logo can easily be changed From the left side menu on admin side, click on Preferences and then Themes Click on the Add File button to search and add your new logo file from your local computer. Once you have added the file, scroll to the bottom of the page and click on the Save button.

Can our themes be customized to fit your website needs?

Yes, our themes are highly customizable. The provided PSD files and theme structure and options allows you to create a completely new look for your website. Additionally we offer customization service too.

Do you provide demo data with your theme?

Yes, we provide One Click Demo Import feature in the Premium themes only, which you can import from the theme's customizer panel.

Can I remove the credit (powered by) text in the footer?

We prefer that you don't.
If you're creating a commercial site that is making a profit and/or for a client, we can provide the means to remove our credit link (and even replace it with your own) as part of our priority support service.

What browsers does the theme work on?

The theme will work as designed on all major modern browsers: Firefox, Chrome, Opera, Safari, Internet Explorer 10+ and Edge.
While the theme will mostly work on older browser versions, some features (like animations, color and background effects and some more advanced functionality) might not be available.

Is the theme responsive?

The theme is fully responsive and is adjusts its appearance and layout based on the screen size of the device it is viewed on.

What version(s) of PHP is the theme compatible with?

5.x to 7.x are the versions of PHP compatible with our themes.

I just updated and all my customizations are gone. How do I get them back?

You will lose customizations to the core files and modules when you upgrade, there is no way around that. As for your theme changes, you might also lose those changes, depending on the options you configured in the module, which you didn't specify. If you've lost customization performed by modifying theme files, then you'll need to search through the backups.

How can I improve SEO in my theme?

Improving your PrestaShop theme SEO is one of the key aspects you should work on in order to be recognized positively by the search engines like Google, Bing, Yahoo, etc. Here is some advice you should follow:
1. Always use good Search Engine Friendly URLs.
2. Use relevant Meta Description for each product, supplier, category etc. you add to improve your ranking in the search results.
3. Generate a sitemap for your website, that way the search engine will be able to "crawl" you easily and in return give you a higher ranking. A great plugin to generate a sitemap for your site is Google Sitemaps.

Is the Theme search engine optimized?

Yes. By its nature, Prestashop is a very SEO friendly platform. However, we have taken extra steps with our Themes to maximize the SEO potential. For instance, we have carefully considered the placement of headings through the theme. Additionally, our theme code utilizes proper HTML5 semantics for increased content recognition from search engine crawlers. Plus, the theme code is minimal to reduce sever requests and load times, resulting in better SEO performance.

Can I add video to the theme?

Yes. Videos can be added to any page or post. Using videos addons.

Can I use the theme for life?

Yes, you can keep using the theme for lifetime. However, we are regularly updating our Products by improving security and compatibility with the latest technologies. We're also fixing bugs and offering great features on a regular basis.

Can I edit the theme files the way I want?

You have full control over the theme files and you can change them any way you want.

What about support?

You'll have great time working with our support agents. Following support channels are available:
Support ticket system
Email Supports

Step 7 : Help

Once again, thank you so much for purchasing the theme. We are glad to help you if you have any questions relating to this theme. You can contact us and submit technical Support Ticket from our support desk.
